Refined railway rehabilitation.

A special challenge was the execution of works without interrupting any activity of the refinery. After three years and a railway rehabilitation of a total of 55km, the contract was successfully completed.

Impressions

Image notes

1

Well on track.

OMV's Petrobrazi refinery, located in Ploiesti, is one of Romania's largest refineries and also one of the largest in Eastern Europe.

2

Securing transport links

Apart from its pipeline connections, the 55km railway tracks are the refinery's most important transport infrastructure.
